# ViTal4Men Clinic

## HIPAA – Notice of Privacy Practices

The Vital4Men Clinic is required by law to maintain the privacy and confidentiality of your protected health information and to provide our patients with notice of our legal duties and privacy practices with respect to your protected health information.

### **Summary of Rights and Obligations Concerning Health Information.**

Vital4Men Clinic is committed to preserving the privacy and confidentiality of your health information, which is required both by federal and state law. We are required by law to provide you with this notice of our legal duties, your rights, and our privacy practices, with respect to using and disclosing your health information that is created or retained by Vital4Men. Each time you visit us, we make a record of your visit. Typically, this record contains your symptoms, examination and test results, our assessment of your condition, a record of your treatment interventions, and a plan for future care or treatment. We have an ethical and legal obligation to protect the privacy of your health information, and we will only use or disclose this information in limited circumstances. In general, we may use and disclose your health information to:

- plan your care and treatment;
- provide treatment by us or others;
- communicate with other providers such as referring physicians;
- receive payment from you, your health plan, or your health insurer;
- make quality assessments and work to improve the care we render and the outcomes we achieve, known as health care operations;
- make you aware of services and treatments that may be of interest to you; and
- comply with state and federal laws that require us to disclose your health information.

**We may also use or disclose your health information where you have authorized us to do so.**

### **You have the right to:**

- ensure the accuracy of your health record;
- request confidential communications between you and your therapist and request limits on the use and disclosure of your health information; and
- request an accounting of certain uses and disclosures of health information we have made about you.

We are required to:

- maintain the privacy of your health information;
- provide you with notice, such as this *Notice of Privacy Practices*, as to our legal duties and privacy practices with respect to information we collect and maintain about you;
- abide by the terms of our most current *Notice of Privacy Practices*;
- notify you if we are unable to agree to a requested restriction; and
- accommodate reasonable requests you may have to communicate health information by alternative means or at alternative locations.

### **Disclosure of Your Health Care Information:**

We may disclose your healthcare information as necessary to comply with State Workers Compensation laws, Public Health Authorities, Emergency Situations, Judicial & Administrative Proceedings, Law Enforcement, Medical Examiners, Researcher that has been approved by an Institutional Review Board, when necessary to prevent a health or safety issue, to military or national security and government benefit purposes, for company approved marketing purposes, showing gratitude for referrals, and change of ownership.

I understand and have been provided with a Notices of Privacy Practices, which provides a description of the information uses and disclosures. I understand and had the right to review this notice prior to signing the consent, the right to object the use of my health information for directory purposes and the right to request restriction as to how my health information may be used or disclosed to carry our treatment, payment or healthcare operations.

**Financial Agreement**

I will pay in full for services at the time of my appointment unless I have insurance coverage that requires another arrangement, or I make a different agreement with my provider.

**Payment for Services:**

You are ultimately responsible for payment of services if your insurance carrier does not pay for any reason. **IT IS THE RESPONSIBILITY OF THE PATIENT OR THEIR RESPONSIBLE PARTY/REPRESENTATIVE TO KNOW THEIR INSURANCE COVERAGE.** Please present your insurance card at each visit. Insurance companies deny claims that are not submitted within 90 days of the date of service. If you do not submit your current insurance to the office at the time of your visit, you may be responsible for denied claims. We attempt to verify coverage before your visit with the information you provide. Verification of coverage does not guarantee the insurance company will pay for your visit. Insurance policies exclude some non-covered services; however, this does not mean services or tests are not necessary. It means the policy you have does not cover certain necessary services. Please keep in mind your insurance policy is a contract between you and the insurance company. The physician has no control over which services the insurance company does or does not cover.

If your insurance carrier's "Criteria" for Testosterone Replacement Therapy does not cover or restricts coverage for services provided by Vital4Men, you will be responsible to arrange payment for the specific services that are not covered. We are under contract with your insurance carrier to bill only for services that fall under the "Criteria" of covered benefits. We cannot bill for services that are deemed "experimental". In some cases Testosterone Replacement Therapy is considered "experimental" by specific insurance companies if the strict "Criteria" is not met.

-----  
**LAB BILLING:** Please be aware that Vital4men has no role in or control over billing issues related to clinical laboratory fees. If you have questions about bills received for laboratory charges or insurance coverage available to you, please contact the clinical laboratory in question and/or your insurance carrier. We regret that our billing staff cannot be of assistance to you in mitigating laboratory charge issues. Please understand that we cannot know which tests are covered by your individual insurance. We also cannot be responsible when you and/or your employer choose a high deductible insurance plan. Our interest is in providing you with quality medical care, utilizing appropriate laboratory testing.  
-----

Current policies in the "ACA" Affordable Care Act may delay payment of your claims due to non-payment of policy premiums by the patient. If your insurance delays, denies or pays and then re-coups the payment of your claims due to non-payment of the policy premium, you will be responsible to pay the claim in full in accordance with our "Financial Policy" guidelines.

I understand that, if my account is referred to a collection specialist due to non-payment, I will pay any applicable collection fees.

**INITIALS:**

\_\_\_\_\_ I HAVE READ THIS FINANCIAL AGREEMENT, ASKED ANY QUESTIONS I HAVE ABOUT IT, AND AGREE TO ITS TERMS.

Patient (**Printed**)

\_\_\_\_\_  
Patient (Signature)

\_\_\_\_\_  
Date

**ADVANCED BENEFICIARY NOTICE**

Date: \_\_\_\_\_

Patient Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_

Your insurance: \_\_\_\_\_ has created strict guidelines regarding testosterone therapy. Based upon these strict guidelines, the following scenarios may apply to you:

1. Vital4Men may not be permitted to bill the codes for some of the testosterone therapy related services you received during your visit to your insurance carrier because the insurance company's testosterone therapy policy prohibits Vital4Men from doing so.
  
2. Vital4Men is permitted to bill your insurance for all codes related to the testosterone therapy you received during your visit. The insurance company considers some of the services or procedures performed experimental. These "experimental procedures" are not usually a benefit and may not be paid by your insurance company.

This "Advanced Beneficiary Notice" is to notify you that if any services are denied as "experimental procedures" the cost of the services may be the responsibility of the patient. You will be informed by one of our staff members if this applies to you. An amount that you will pay at the time of each visit for these non-covered procedures will be confirmed and communicated to you. If your insurance changes or is terminated, please notify our staff immediately. Any insurance changes may affect the agreed upon amount you will pay per visit. You will be notified of any changes prior to your next visit.

The codes that may be denied may include but are not limited to: 96372, J1071, J3420

A copy of these guidelines is available through your insurance company. Each insurance company differs in their testosterone therapy policy. If you have further question regarding your insurance policy, please contact the customer service number on the back of your insurance card.

The charges for these codes will be approximately: \$ 5.00 to \$ 175.00 \_\_\_\_\_

# Vital4Men Clinic

## Vital4Men Clinic Testosterone Consent Form & Terms of Acceptance

At the Vital4Men Clinic, our goal is to help treat hypogonadism (low testosterone) and restore your testosterone to an optimal level, as well as improve your overall quality of life. The American Academy of Family Physicians has examined the effectiveness & safety of testosterone replacement therapy (TRT) and found that there is no compelling evidence of major side effects of properly administered TRT. Side effects can be controlled and may include, but are not limited to:

**Injection Site Reaction:** Localized irritation, swelling, warmth or redness of surrounding skin.

**Fluid Retention:** Fluid accumulation may be observed, especially in older men. Symptoms may include leg or ankle swelling, worsening of congestive heart failure, or high blood pressure.

**Elevation in Red Blood Cells/Hemoglobin/Hematocrit:** TRT may cause an increase in red blood cell concentration, hemoglobin and/or hematocrit levels, which may increase cardiovascular and clotting risk. This may require therapeutic phlebotomy or blood donation.

**Breast Tissue Enlargement:** This is the result of testosterone converting into estrogen, and may require dosage adjustments and/or medication to prevent conversion to estrogen.

**Prostate Enlargement:** From conversion of testosterone to DHT. No current study has linked TRT to increased incidence of prostate cancer.

### Changes in Lipid & Cholesterol Levels

#### Acne and/or Oily Skin

**Testicular Atrophy:** From decreased LH & FSH signal from pituitary.

**Decreased Fertility:** From decreased FSH signal from pituitary.

\_\_\_\_\_ All of the above conditions have been fully disclosed & explained by  
(patient initial) my Vital4Men Provider.

\_\_\_\_\_ I have had the opportunity to discuss in detail my health history with  
(patient initial) my Vital4Men Provider.

\_\_\_\_\_ I understand that Vital4Men recommends an annual physical  
(patient initial) examination.

\_\_\_\_\_ I understand that medicine is an art, not an exact science and that  
(patient initial) diagnosis and treatment may involve injury or risks.

## **B12 Injections Informed Consent**

Patient Name \_\_\_\_\_

Vitamin B-12 helps maintain good health and has been shown to be beneficial in helping to reduce stress and fatigue, improve memory and cardiovascular health, and maintain a good body weight. It can also assist the body in converting proteins, fats and carbohydrates into energy and is necessary for healthy skin and eyes.

All medications and supplements have potential side effects. Potential common B12 side effects include but are not limited to: mild diarrhea, upset stomach, nausea, a feeling of pain and/or warm sensation at the injection site, swelling, headache and joint pain.

1. If any of these side effects become severe or troublesome I will contact my physician immediately.
2. I understand that although rare, vitamin B12 injections can result in serious side effects. Although this is a relatively rare occurrence, anyone taking vitamin B12 injections should be aware of the possibility. Uncommon side effects are much more serious than the common side effects of B12 injections, and such side effects should be reported to a physician to be evaluated for seriousness. Uncommon and dangerous side effects include: rapid heartbeat, chest pain, flushed face, muscle cramps and weakness, difficulty breathing and swallowing, dizziness, confusion, rapid weight gain, feeling of tightness in the chest, hives, skin rashes, shortness of breath when there is no physical exertion and unusual wheezing and coughing.
3. Before starting vitamin B12 injections I will make sure to tell my physician if I am pregnant, lactating, or have any of the following conditions: Leber's Disease, kidney disease, liver disease, an infection, iron deficiency, folic acid deficiency, receiving any treatment or taking any medication that has an effect on bone marrow, an allergy to cobalt or any other medication, vitamin, dye, food or preservative.
4. I understand that certain herbal products, vitamins, minerals, nutritional supplements, prescription and non-prescription medications may result in side effects when they interact with the B12 injection.
5. B12/MIC is not recommended for patients with allergies to sulfa drugs. Caution is advised in those receiving B12 but have a suspected sulfa allergy.

By signing below, I acknowledge that I have read the informed consent and agree to the treatment with its associated risks. I hereby give consent to perform this and all subsequent B12 Injections. I agree to inform my physician of any health status changes. I hereby release the doctor, the person injecting the B12 and the facility from liability associated with this procedure.
