Financial Agreement

I will pay in full for services at the time of my appointment unless I have insurance coverage that requires another arrangement, or I make a different agreement with my provider.

Payment for Services:

You are ultimately responsible for payment of services if your insurance carrier does not pay for any reason. **IT IS THE RESPONSIBILITY OF THE PATIENT OR THEIR RESPONSIBLE PARTY/REPRESENTATIVE TO KNOW THEIR INSURANCE COVERAGE.** Please present your insurance card at each visit. Insurance companies deny claims that are not submitted within 90 days of the date of service. If you do not submit your current insurance to the office at the time of your visit, you may be responsible for denied claims. We attempt to verify coverage before your visit with the information you provide. Verification of coverage does not guarantee the insurance company will pay for your visit. Insurance policies exclude some non-covered services; however, this does not mean services or tests are not necessary. It means the policy you have does not cover certain necessary services. Please keep in mind your insurance policy is a contract between you and the insurance company. The physician has no control over which services the insurance company does or does not cover.

If your insurance carrier's "Criteria" for Testosterone Replacement Therapy does not cover or restricts coverage for services provided by Vital4Men, you will be responsible to arrange payment for the specific services that are not covered. We are under contract with your insurance carrier to bill only for services that fall under the "Criteria" of covered benefits. We cannot bill for services that are deemed "experimental". In some cases Testosterone Replacement Therapy is considered "experimental" by specific insurance companies if the strict "Criteria" is not met.

LAB BILLING: Please be aware that Vital4men has no role in or control over billing issues related to clinical laboratory fees. If you have questions about bills received for laboratory charges or insurance coverage available to you, please contact the clinical laboratory in question and/or your insurance carrier. We regret that our billing staff cannot be of assistance to you in mitigating laboratory charge issues. Please understand that we cannot know which tests are covered by your individual insurance. We also cannot be responsible when you and/or your employer choose a high deductible insurance plan. Our interest is in providing you with quality medical care, utilizing appropriate laboratory testing.

Current policies in the "ACA" Affordable Care Act may delay payment of your claims due to non-payment of policy premiums by the patient. If your insurance delays, denies or pays and then recoups the payment of your claims due to non-payment of the policy premium, you will be responsible to pay the claim in full in accordance with our "Financial Policy" guidelines.

I understand that, if my account is referred to a collection specialist due to non-payment, I will pay any applicable collection fees.
